AFLAC #67 (continued)CONTACT: NICOLE TABAN

AFLAC is a well-established international company, insuring more than 40 million people worldwide. We are the largest provider of Section 125 IRS Code (Cafeteria Plan) in the United States. Section 125 can save your company on the annual payroll taxes (FICA, FUTA, etc.) as well as your contribution towards workman's compensation without costing you anything or changing anything you have in place. Facing the current struggle to have and maintain worker's compensation insurance, this is a great way to help your bottom line while boosting employees' morale. AFLAC is also the number one supplemental insurance company in the U.S. Our products are meant to pay the policyholder in case of accidents and illness.

AIR CLEANING SOLUTIONS #50

4952 WARNER AVENUE #236
HUNTINGTON BEACH, CA 92649
(714) 840-8099
(714) 840-9399 FAX

CONTACT: ROY GERBER

Air Cleaning Solutions presents a complete line of dust collection systems, industrial air filtration equipment and high vacuum systems to help reduce air pollutants inside your workspace. Air pollutants such as smoke, dust, oil, mist, fumes, and odors can be reduced and controlled in all workspaces; including machining, grinding, welding, woodworking, automotive, printing, schools, homes, and many other applications. Contact Air Cleaning Solutions for your sales, service, design, or installation needs for industrial air filtration, high vacuum, or dust collection systems.

ECHO ENGINEERING & PRODUCTION SUPPLIES #28 (continued)

PRODUCTS:

Masking supplies for the finishing industry – high temperature tapes, caps, disks, chord, tubing, and liquid masking products.

Other products – Polypropylene and stainless steel plating baskets, hooks, tape dispensers, shipping caps, protective film, and packaging tapes.

SERVICES:

Custom Masking Solutions – die cutting, rubber and plastic molding, and custom tape slitting. Echo offers Engineering services to solve difficult masking problems by offering custom masking solutions. It is our goal to decrease overall production costs by reducing the amount of time and labor spent masking and de-masking parts.

The HF group is an innovative leader in designing, manufacturing and installation of high quality chemical handling and pollution control systems. We have developed a modular Advanced Oxidation system and a Low Temperature Distillation system. Both systems are self-contained and are Allen Bradley PLC controlled. With either or a combination of our two technologies, we are able to recover solvents and completely eliminate most organic, inorganic and dissolved metals from waste water and rinse water streams to achieve true zero liquid discharge. Our advanced oxidation system is well suited for the reduction of cyanide in rinse waters to non-detectable levels.
