

MARCH DINNER MEETING

Wednesday, March 17, 2004

Stevens Steakhouse

Sanitation Districts—Future Trend

Officials from Los Angeles County, Los Angeles City, and Orange County will discuss future trends and Regulatory Requirements that EPA has imposed on them and what it means to us.

Guest speakers
County of Los Angeles Sanitation District
City of Los Angeles Sanitation District
Orange County Sanitation District

Every Year MFASC invites the local Sanitation Districts to speak to our members. Updates are given on what each district is facing with regard to both industry and the USEPA. Discussions will include trends in Compliance and also "Significantly Out of Compliance", and current definitions thereof.

For those facilities who are "significantly out of compliance" your company name is published in a **free newspaper ad** paid for by the districts. The ad is published annually however it does not bring positive favor to your company. Find out how to stay off this list.

The information from this meeting is always of high interest to you, the members. After all, most of us are inspected by the districts at least 2 times a year if not 4.

This meeting is one of the highest attended meetings of the year.
If you have missed past Sanitation District meetings....
DON'T MISS THIS ONE !
