

Metal Platers Hazardous Waste Generator Training

Monday and Tuesday, September 20 and 21, 2010

9 a.m. to 1 p.m.

Stevens Steak House

5332 E. Stevens Place

Commerce, CA 90040

This September 20 and 21 the U.S. Environmental Protection Agency will be conducting hazardous waste generator training specifically for the metal finishing sector in the Los Angeles County area. The training will include both basic generator requirements and information tailored for metal finishing facilities. Staff from U.S. EPA as well as local and state regulators will be present to answer questions. Both federal RCRA and California Title 22 regulations will be covered.

Who Should Attend: The workshop is designed for people responsible for managing hazardous waste on a day-to-day basis.

Questions to be addressed:

- What are the most common problems and violations inspectors see at metal finishers?
- What can you expect during a hazardous waste inspection?
- How can I reduce the cost of managing hazardous waste?
- How can I make compliance easier by reducing the amount of hazardous waste generated?
- How can I get employees to help maintain compliance?

Training topics will include:

- Managing hazardous wastes as generators
 - Large Quantity Generators vs. Small Quantity Generators;
 - Container management;

- Tanks;
 - Satellite accumulation areas;
 - Universal Wastes;
 - Generator on-site waste treatment;
 - Record keeping requirements;
 - Wet floor management.
- Pollution prevention/source reduction

DATES: September 20 and 21, 2010 (9:00 am – 1:00 pm)

LOCATION: Stevens Steak House

5332 Stevens Place

Commerce, CA

FEE: \$40 per person. (Refreshments and lunch (Monday only) will be provided)

Payment will be made through the Metal Finishing Association of Southern California (MFASC), a joint sponsor of the training. Please make checks out to MFASC and mail payment and the attached enrollment form to:
